EDUCATION

Social Hackers Academy, Athens - Coding School

October 2019 – May 2020

Full Stack Development Course. I had the opportunity to get myself familiar, with Full Stack Concepts. I began to develop my skills into the Front End technologies, such as the HTML5 and CSS3 language stylesheet language. Then I got into Vanilla Javascript and front end frameworks such as React.JS. Also I had the opportunity to familiarize myself with back end technologies, such as Node.js and backend frameworks Express.js.

Akto Art and Design College, Athens - " BA on Sketch-Comics-Cartoon"

OCTOBER 2007 - JULY 2010

My BA based on learning about design, storytelling, art.

PROFESSIONAL EXPERIENCE

HYPERMORPH, Athens - Junior Web Developer

May 2023 – August 2023

I am currently working in a role of junior web developer. I use frontend technologies HTML5, CSS and PHP as backend technology. Also I have gained more experience on handling SQL databases. At my current role I support an ERP Medical Software, so I handle solutions based at customer's needs and requests through coding.

OTE, Athens - Application Support engineer

November 2021 – May 2023

I work into an IT sector, providing server application support. I have gained experience on SQL databases and Unix Operating Systems, also I have enriched my knowledge into an app architecture that supports entrerprise products. I used monitoring tools such as Dynatrace in order to analyze and provide business metrics.

Istogram, Athens - Front End Developer

June 2021 – October 2021

I use technology and tools in order to solve coding problems and bring solutions that can improve the experience of the user on the web . I use front end technologies (HTML5, CSS3, Vanilla Javascript) and front end frameworks (Vue.js, Nuxt.js).

Teleperformance Hellas, Athens - Customer Agent

June 2019 – August 2021

I deliver solutions everyday to customers. I use empathy and proplem

solving skills to interact with other people.
